(Dover News.)

This issue of the News ends the twenty-seventh year of its existence—twenty-seven years of constant effort to put Dover on the map. It has met with "rough sledding" at times but always a booster, never a knocker. It has never been appreciated fully and some people do not yet realize what it has done for the town and community.

During this period 1,536 different editions have been printed, over 2,000,000 copies have been sent out, reaching no less than 10,000,000 readers.

## AMENDMENTS

To The Glenn Insurance Bill Make It More Acceptable To The Companies In New Form.

Frankfort, Ky., February 25.—While a crowd in the Senate gallery was waiting for the Glenn bill, giving the State Insurance Rating Board power to enforce its rates on fire insurance companies, to be called up, the Senate, on motion of Senator Hall, made the budget bill a special order for Friday. The bill provides that a budget committee of five members, composed of three senators and two representatives, be selected to examine the affairs of any department, institution, public works, commission or officer of the State to ascertain facts and make recommendations relative to increasing the efficiency and curtailing expenses of the various offices.

All State departments, institutions, commissions and officers of the State shall, on or before the first day of November, biennially in the odd-numbered years, report on blanks furnished for such purposes and estimate in itemized form to the governor, stating the amount of money needed for their wants for the biennial period, beginning with the first day of July there after.

The members of the committee shall receive a salary not to exceed \$10 per day, together with traveling expenses.

Senator Frost's measure providing for local option elections on a petition of 25 per cent. of the voters of the whole county was reported favorably by the House Committee on Alcoholic Liquor Traffic and given its first reading. The measure passed the Senate after a bitter fight. The House committee voted unanimously in favor of the bill.

The Committee on Appropriations reported a substitute resolution providing a budget system of caring for appropriations and expenditures and the resolution was ordered printed and placed on the desks.

The same committee reported an original bill repealing the appropriations for the various State institutions, which was given its first reading.

The Glenn Insurance bill has been amended by the rating board, who claim it will pass the Senate 27 to 9. It has passed the House. "The amendments proposed by the rating board to the Glenn bill in the Senate," said Chairman Ruby Laffoon of the board, today, "will be offered by Senator Glenn and are proposed by the board and not through any compromise agreement with the fire insurance companies.

The whole purpose of the measure is to strengthen the power of the board to compel compliance with its orders, regarding fire insurance rates, and to reduce the fire loss in the State by acquainting the insurers with the nature of the hazards and how to remedy them.

"We decided not to insist upon the provision of the Glenn bill, empowering the board to apply the schedule of rates to individual risks. We found it could not be done inside of three or four years, but while the companies have the right to apply the rate to the risks, they required to file with the board immediately the make up every risk rated.

"The tax on premiums is made 1 per cent. The bill provides for the appointment of a hydraulic and electrical engineer, whose duty it will be to test the water plants, see that cities are properly classified with reference to fire protection and to inspect wiring and reduce fire hazards by means of this inspection." The board also will have the right to investigate risks and ascertain whether they are over-insured.

"The bill provides for a commission of three men to make investigation and report to the 1916 General Assembly. The bill also gives the board power to require a flat raise or reduction in rates on particular classes of risks."

The readers of this paper will be pleased to learn that the latest and best medical discovery has been made in the treatment of Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure takes internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars to anyone who can cure a case of Catarrh that it fails to cure. Send for literature free.

## Farmers

Have you ever tried our way of borrowing money to pay for a farm?

You, of course, know that most farms are sold for one-third cash and the balance of the payment is represented by lien notes due in one and two years. You also know that there are times when it is impossible to pay these notes when they become due.

Our specialty is lending money on good farms for LONG PERIODS. Wouldn't you rather have five years to pay the balance than two years? Any one expecting to buy farms this March will do well to come in and consult us about getting the money.

We have been giving satisfactory service for 24 years.
